

CALL FOR APPLICATIONS

AUSY strengthens its commitment to the 4L Trophy by once again sponsoring 6 teams

Students have until 13th October to send their applications

Travel thousands of kilometres, go beyond one's limits, help one another even in a competition - this could be the motto for the 4L Trophy.

For 19 years the 4L Trophy has established itself as the most important student rally in Europe. Each year more than 2,000 young adults invest in this project. Together, they travel across France and Spain until they reach Morocco, where they help underprivileged children. AUSY has been committed to helping student teams for 5 years. Once again this year, the Group will support 6 teams for the 2017 edition of the 4L Trophy, which will take place from 16th to 26th February.

Last year, AUSY supported 12 students, or 6 teams from all over France. They set off on 18th February for a 10-day adventure. They travelled across breath-taking French, Spanish and Moroccan landscapes and experienced some unforgettable moments. At the end of their journey, the teams ranked between 37th and 1022nd out of 1,200 teams in total.

This sponsorship is **completely in line with AUSY's CSR (Corporate Social Responsibility) policy**. It is also an opportunity for the Group to **maintain close relationships with schools and to forge long-lasting links with engineering students**. Over time the personalities, qualities and ambitions of each student become apparent. It is a long-term solution for **identifying future talents**.

AUSY is now calling for applications. Engineering students that would like to have an unforgettable experience and receive support from AUSY **can send their applications to the address 4ltrophy@ausy.com before 13th October 2016**.

About the AUSY Group

AUSY is an international Consulting and Engineering firm in Advanced Technologies with a business model based on innovation and complementary services between its 2 core activities: Information Systems and complex Industrial Systems. In 2015, AUSY reached a turnover of €394.3million and had employed more than 4,500 personnel at over fifty locations in Europe, the United States and Asia.

AUSY is a key partner for large-scale project steering and a primary support for large international companies. The Group offers a comprehensive service package which combines consultancy and expertise, from the production of applications and systems up to the outsourcing of activity on-and off-site.

Nominated for the 'Prix de l'Audace Créatrice' for the last two years, AUSY brings support to many innovative or humanitarian projects. AUSY operates in various activity sectors:

- Health
- Telecommunications and media
- Aerospace
- Space industry
- Transportation
- Energy
- Defence
- Banking, insurance, finance
- Governmental and European institutions
